

TANDEM

Architect:
STL Architects

Interior Designer:
STL Architects

Size: 20,000 SF

In 2018, Tandem will complete an 18-unit mixed-use project at the corner of Lincoln and Cornelia in Lakeview. The building will include fifteen 1-bedroom apartments and three 3-bedroom, 3-bath units. Tandem worked with Alderman Ameya Pawar (47th) to rezone the property to B3-3 and leveraged the City's TOD ordinance to reduce parking to just 8 spaces. The building will feature a sleek and modern brick façade as well as an expansive rooftop deck with stunning views of downtown Chicago. The interior will contain contemporary finishes and a warmer color palette. Please check back for updates on the progress of this exciting new Tandem development project.
