

Mode Logan Square

TANDEM

Architect:
Antunovich Associates

Interior Designer:
AC Atelier

Size: 106,000 SF

The property located at 2501 West Armitage was once a well known fine arts storage facility, dating back to the early 1900s. In 2013, Tandem was chosen by the owner to redevelop the property as a vibrant, mixed-use community now branded as MODE Logan Square. The project is a LEED certified, Transit Oriented Development (TOD), located only 635 feet from the Western Blue Line train station. We began the rezoning process in 2013, working closely with Alderman Proco Joe Moreno and Antunovich Associates. The neighborhood has evolved significantly over the course of the last three years with an increase in residents, retail, and restaurants moving into the community. After numerous planning iterations, Tandem moved forward with the development of two 4-story buildings with 78 units, 55 parking spaces, and 6,500 square feet of retail along Armitage Avenue. The building is unique in that it provides residents with a spacious interior courtyard that offers lush landscaping, furnished gathering spaces, and a dog run. Other building amenities include a fitness center, community rooms, and spacious terraces for the second floor units that face the courtyard. MODE was the catalyst for the establishment of Tandem's first Property Management division.
