

Easton Station - Buffalo Grove Development

Developer:  
Tandem Partners

Builder:  
David Weekly Homes

Size: 2.0 acre site  
15 multi-family units

Tandem Architecture designed the new site plan and a proposed product line for a 2acre property in unincorporated Prairie View Illinois, one block from the Metra Station. Tandem coordinated all of the site engineering, performed all of the entitlement work and worked with the Village of Buffalo Grove to annex and improve the parcel. As a result we obtained approval for 15 multifamily units with a mix of 2-story duplexes and 3-story townhomes on the compact site.
